SUMMARY

I am a passionate software developer with strong problem-solving skills and hands-on experience building end-to-end full-stack web applications backed by national-level hackathon achievements. I am dedicated to solving complex real-world challenges using modern technologies while adhering to software engineering best practices within collaborative environments.

EDUCATION

Bapuji Institute of Engineering and Technology

Bachelor of Engineering in Computer Science

Sir MV Composite PU College

Class 12

Bapuji Higher Primary CBSE English Medium School

Class 10

Aug 2023 – May 2027

CGPA: 7.90/10

May 2023

Percentage: 82.8%

May 2021

Percentage: 88.6%

TECHNICAL SKILLS

- **Languages:** C, Java, Python, SQL
- **Web Technologies:** HTML5, CSS3, React.js, Next.js, Node.js, Express.js, TypeScript
- **Databases:** PostgreSQL, MongoDB, Firebase, Supabase
- **Developer Tools:** Git, GitHub
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Full-Stack Web Development

PROJECTS

AutoPrior – AI-Powered Healthcare Prior Authorization System

[Live](#) | [GitHub](#)

- Built a full-stack healthcare automation platform to streamline insurance prior authorization workflows using an end-to-end AI pipeline, Optical Character Recognition (OCR) based document extraction, and real-time status tracking.
- Implemented Retrieval-Augmented Generation (RAG) based insurance rule retrieval, multidimensional confidence scoring, and role-based access control for hospital staff, reviewers, and administrators with live dashboard updates.

CLEVER – Computer Science Visualization Engine

[Live](#) | [GitHub](#)

- Built a full-stack interactive learning platform covering Data Structures and Algorithms, Operating Systems, Computer Networks, and Theory of Computation with animated step-by-step visualizations.
- Integrated an AI teaching assistant via Google Gemini API for real-time explanations, with Supabase powered secure authentication, progress tracking, and a personalized dashboard.

PROFESSIONAL EXPERIENCE

AWS Cloud Computing Virtual Intern

Jan 2026 – Mar 2026

NASSCOM FutureSkills Prime & SmartBridge

Remote

- Gained hands-on experience with core Amazon Web Services including compute, storage, and networking; developed foundational knowledge of cloud architecture, service integration, and real-world deployment scenarios.

AI and Sustainability Virtual Intern

Dec 2025 – Jan 2026

One Million One Billion (1M1B) IBM SkillsBuild

Remote

- Completed an 8-week internship applying Artificial Intelligence and data analysis techniques to real-world social impact use cases.

ACHIEVEMENTS

- **1st Place** – INFOTHON 5.0 National Level Hackathon, VVCE Mysuru Oct 2025
- **2nd Place** – Agentic AI and Generative AI Hackathon, BIET Davanagere Aug 2025
- **Top 10** – Hack Karnataka GDG Hackathon among 1000+ teams, KLE Tech University Hubballi Nov 2025

CERTIFICATIONS

- MongoDB Associate Developer Exam – Python Jul 2025
- Oracle Certified Data Science Professional Oct 2025
- Oracle Certified Generative AI Professional Oct 2025
